Příklad 1

Tech:

Čístenka ..... P mm

Šířka ..... F mm

Režní ..... R mm

Guláš ..... G mm

Víme:

$$P = F + 150$$

$$F = G - 200$$

$$R = 2730$$

~~$$R = 1100 - P$$~~

$$R - 1100 = P$$

Z toho vyplývá:

$$P = R - 1100 = 2730 - 1100 = 1630$$

$$F = P - 150 = 1630 - 150 = 1480$$

$$G = F + 200 = 1480 + 200 = 1680$$

$$R = 2730$$

Poradce:

$$F < P < G < R$$

$$1480 < 1630 < 1680 < 2730$$
